ADVISORY COMMITTEE

PATRON

Prof. Devendra Jalihal, Director, IIT Guwahati

CHAIRMAN

Prof. Rajib Bhattacharjya, HOD, Department of Civil Engineering, IIT Guwahati
Prof. Sudip Mitra, HOS, SART, IIT Guwahati

CONVENOR

Prof. Ajay Kalamdhad, Department of Civil Engineering, IIT Guwahati
Dr. Meena Khwairakpam, SART, IIT Guwahati

INTERNATIONAL MEMBERS

Prof. Jonathan W C Wong, DUT, Guangdong, China
Prof. John In Hong, SNU , South Korea
Prof. Pascaline Pré, IMT Atlantique
Prof Agamutu Pariatamby, Sunway University, Malaysia
Prof. C. Visvanathan, AIT, Thailand
Prof. Muhammed Alamgir, KUET, Bangladesh
Prof. R. Dissanayake, University of Peradeniya, Sri Lanka
Dr. Yael Laor, Newe Ya'ar Research Centre, Israel
Dr Brandon Gilroyed, University of Guelph, Canada
Prof. Ramesh Goel, University of Utah, USA

NATIONAL MEMBERS

Prof. A.A. Kazmi, IIT Roorkee
Prof. B.J. Alappat, IIT Delhi
Prof. A.K. Nema, IIT Delhi
Prof. B.K. Dubey, IIT KGP
Prof. A.K. Gupta, IIT KGP
Prof. M.M. Ghangrekar, IIT KGP
Prof. Anurag Garg, IIT Bombay
Prof. P.K. Singh, IIT BHU
Prof. A.B. Gupta, MNIT Jaipur
Prof. K.D. Yadav, SVNIT Surat
Dr. Maulin. P. Shah, Enviro Technology Limited, Gujarat
Dr. Mayur Shirish Jain, IIT Indore
Dr Izharul Haq, Manipal University

REGISTRATION

IMPORTANT DATES

Last date of Abstract Submission: 31st January, 2027
Acceptance of Abstract: 15th March, 2027
Last Date of Registration: 31st March, 2027
Full Paper Submission: 31st March, 2027

FEES

Indian Nationals

- Faculty Members: INR 7500/- + 18% GST
- Post Doc: INR 7500/- + 18% GST
- Research Scholars: INR 5500/- + 18% GST
- MTech & BTech Students: INR 3500/- + 18% GST

Foreign Nationals: 150 USD

RECYCLE 2027

6th INTERNATIONAL CONFERENCE ON WASTE MANAGEMENT

20th and 21st MAY, 2027

Organized by

Waste Management Research Group (WMRG)
AWASR Society
Department of Civil Engineering
School of Agro and Rural Technology
Indian Institute of Technology Guwahati

RECYCLE

After five successful international conferences, Recycle 2027 is here again, bringing national and international researchers, scientists, and academicians to discuss and learn about the latest innovative ideas and technology for waste management. Starting off as a symposium in 2012, a Waste Management Research Group (WMRG) IIT Guwahati initiative, Recycle, gradually rose to an international conference in a mere five years

Recycle 2027 aims in inculcate awareness about safe practices and the latest technologies for managing and treating solid and liquid waste. Also, the added motivation is 'Inclusivity'—to bring together all the researchers, scientists, professionals, industry personnel, and citizens to bridge the gap between research and practice. Recycle 2027 would provide an excellent platform for discussing and sharing ideas, methods, and approaches for effective waste management, emphasizing the core issues of solid waste management, water and wastewater

VENUE

Conference Centre,
Indian Institute of Technology Guwahati
Guwahati – 781039, Assam, India

ABOUT IIT GUWAHATI

Indian Institute of Technology Guwahati (IITG), established in 1994, is one of India's leading institutes of technology and excellence. At present, the institute has eleven departments, nine centres, and five schools of interdisciplinary academic centres. IITG has a world-class infrastructure and has state of the art scientific and engineering instruments for carrying out advanced research, IIT's campus is on a sprawling 704.25 acres plot on the north bank of river Brahmaputra, around 20 km from the heart of Guwahati city. Guwahati is connected to many major cities in India by road and air. Institute buses are available from Guwahati City (railway station and airport) to the IITG campus.

THEMES

1. Solid Waste Management: Generation, Collection, Segregation, Storage, and Transportation
2. Water and Wastewater Treatment, Reuse, and Resource Recovery
3. Reduce, Reuse, Recycling, Resource Recovery, Carbon Sequestration, and Circular Economy
4. Biological Treatment and Bioconversion Technologies
5. Landfilling, Leachate Management, and Landfill Mining
6. Pyrolysis, Gasification, Incineration, and Thermochemical Conversion Technologies
7. Emerging Contaminants: Monitoring, Fate and Transport, Risk Assessment and Advanced Remediation
8. Integration of Artificial Intelligence, Machine Learning, and Digital Technologies in Waste Management

PLACES TO VISIT
